Start your Child's reading journey with the CRC

We provide the universal family literacy program called Better Beginnings program through the library services on the third Thursday of each month starting at 9am CRC Sunroom. For a Gold Coin Donation morning tea is provided

Whether you've just had a new baby, or your child is starting kindergarten or pre-primary, if you live in town or on a farm, or you're interested in getting some tips on reading, find out more ways that you and your family can enjoy reading together. Reading to babies from birth builds their early language skills and gives them an early love of books that will support their future success as readers. Recent research has shown that all the groundwork for literacy development takes place in the first three years of life.

Better Beginnings brings together research and practice, babies and books, families and libraries by:

- introducing children to developmentally appropriate books and language activities
- supporting parents as their child's first teacher
- raising awareness of the value and enjoyment of reading together
- linking families to the free services at their local public library

Did you know that picture books are the best source of new vocabulary with more than 30 rare words introduced per 1000 words - more than the number of new words introduced in either a adult or children's television program? (Hayes & Ahern, 1988)
